■ ■ CONSTANT COMFORT™
IIS 90 Two-Stage Gas Furnace

Heating & Cooling Products

Now the latest technology can help you winter-proof your home. This furnace ends the problem of hot and cold temperature swings, common to single-stage systems. The Day & Night Constant Comfort™ IIS 90 Two-Stage Gas Furnace automatically adjusts heat delivery, operating at a primary stage in normal conditions and boosting heat when temperatures get colder. The integrated control system adjusts the flow of gas and combustion fan to each stage, so your home stays uniformly comfortable. Solid quality extends to every detail of this furnace. The enclosed burner and fully insulated cabinet cut down noise as well as keep in the heat. The blower runs at low speed most of the time—also reducing noise—and the transition to higher heat always happens quietly.

Every Day & Night unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty*, which gives you a replacement unit if the heat exchanger should fail within the first five years. You also get up to a 10 year⁵ parts limited warranty* and a lifetime limited warranty* on the stainless steel heat exchanger. And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to DayandNightComfort.com.

⁵Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at DayandNightComfort.com for complete details.

More heat for your energy dollar means more savings for you! The high efficiency of 92% AFUE¹ begins with the RPJ® III heat exchanger. Made of durable stainless steel with a weld-free construction, this exclusive heat exchanger offers maximum heat transfer as well as resistance to corrosion, and it has no seams to crack. So you're getting efficiency plus!

¹AFUE stands for Annual Fuel Utilization Efficiency.

Higher AFUE Equals Greater Energy Savings

Percentage based on national averages; may vary according to efficiency of current unit and installation.

The difference is Day & Night.

1. Reliable

Direct Hot Surface Ignition System features an advanced silicon nitride igniter for greater reliability.

2. Durable

RPJ® III primary heat exchanger has a ripple-edged design that forces more heat to the outside surface

for higher efficiencies. Made of corrosion-resistant, weld-free stainless steel.

3. Heating On Demand

Two-stage redundant gas valve and two-speed induced draft blower assembly modulate up smoothly when more heat is needed.

4. Quiet

Enclosed burner, fully insulated cabinet, and solid door design result in quiet operation.

5. System Monitoring

State-of-the-art electronic controls monitor system operation for faster, easier system diagnostics.

PURE COMFORT FOR ALL SEASONS.

Day & Night Heating & Cooling Products recommends a complete integrated system to maximize comfort and efficiency.

- a. **Humidifier** enhances comfort by reducing dryness in the air.
- b. **Air Cleaner** filters out many indoor air pollutants so the air in your home is cleaner.
- c. **Set-Back Thermostat** allows you to customize heating and cooling levels and also save energy.
- d. **Furnace** is designed for maximum comfort and high efficiency and built rugged for years of operation.
- e. **Air Conditioner** keeps your home cool and comfortable while saving on energy.
- f. **Evaporator/Indoor Coil** matches your Day & Night air conditioner and furnace to ensure great performance.
- g. **UV Lights** help prevent the growth of microbes on the coils.

^AFUE stands for Annual Fuel Utilization Efficiency. Higher number = Greater efficiency.

^This Day & Night product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)

All systems tested and listed by the appropriate agencies.
